

A Teacher's Perspective on Student Research

Lindsay Knippenberg
Einstein Fellow
NOAA Office of Education

My Background

- 7 years teaching at South Lake High School (East Detroit/St. Clair Shores, MI)
- 9th grade Biology, Aquatic Biology, Botany, Environmental Science
- Advisor for Science Olympiad and Envirothon

Things to think about...

- Where are you going to find good teachers to work with?
- How will you convince the teacher(s) to work with you?
- Tips for going into the classroom
- Tips for designing student research projects
- Importance of continued collaboration
